

KHAT Podcast Website Blueprint

Sitemap and Feature Set (English)

Version 1.0 - February 02, 2026

Purpose: make the website a home for KHAT (owned platform) that offers value beyond YouTube through discovery, searchable knowledge, community, and business funnels.

Quick Architecture Overview

Core Content	Episodes, Timestamps (Chapters), Quotes, Guests, Resources, Articles
User Layer	Accounts, Favorites, Playlists, Topic preferences (optional for MVP)
Growth Layer	SEO landing pages, Newsletter, Share-ready quotes and timestamp links
Business Layer	Sponsorship packages, Sponsor lead forms, Guest application, Media kit

0) Global System (Applies Everywhere)

These are cross-site capabilities that keep the experience premium, searchable, and scalable.

- Mobile-first, responsive design with fast page loads and clean typography.
- Arabic-first UX (with optional English later if desired).
- Global search across episodes, timestamps, quotes, guests, and articles.
- Share-ready links (episode, timestamp, quote) with rich previews for social platforms.
- SEO foundation (clean URLs, metadata, structured data) for long-term organic growth.
- Analytics: traffic, episode views, saves, newsletter conversions, sponsor lead tracking.

Public Website Pages

1) Home

- Latest episode hero block with clear CTA to watch/listen.
- "Start Here" curated paths for new visitors (by interest).
- Latest articles/insights and a rotating quote section.
- Platform links (YouTube, Apple Podcasts, Spotify) + newsletter signup + sponsor CTA.

Notes / Enhancements:

- For logged-in users: Continue watching, Recommended for you (based on saved topics).

2) Episodes Hub

- Episode feed with filters (topic, guest, season, duration, mood).
- Sorting options: newest, most saved, most viewed.
- Episode cards show duration, guest, key topics, release date.

- Search results can return both full episodes and matching timestamp chapters.

3) Episode Detail Page (Core)

- Embedded YouTube video (optionally privacy-enhanced).
- Structured episode summary + key takeaways (3-7 bullets).
- Timestamp chapters for topic-based navigation.
- Quotes library (copy/share) + resources mentioned (books/links).
- Related episodes (same theme) and guest preview (if applicable).

Notes / Enhancements:

- User actions: Save episode, Save timestamp clip, Save quote, Share episode/timestamp/quote, Add to playlist.

4) Clips / Highlights Library (Optional, High Impact)

- Searchable, filterable library of short moments from episodes.
- Each clip has title, short excerpt, timestamp link, and suggested share caption.
- Trending section: most shared clips this week.

5) Guests Directory

- Guest directory searchable by name/topic.
- Guest profile page: bio + photo, appearances, key quotes, external links, topic tags.

6) Start Here (Onboarding)

- Curated entry paths: relationships, emotional emptiness, self-worth, meaning, society, etc.
- Recommendation blocks: If you liked X, watch these next.
- Top 10 episodes (curated) for newcomers.

7) KHAT Space (Articles / Insights)

- Episode companions (short written insights), topic explainers, and curated reading lists.
- Categories + tags + reading time + save/share.
- Optional advanced: text highlights for members.

8) Quotes Library

- Browse quotes by theme (love, loneliness, ego, purpose, etc.).
- Search quotes; copy/share with KHAT branding options later.
- Quote of the day + most saved quotes.

9) Newsletter

- Newsletter value proposition + signup form.

- Optional archive (past issues).
- Automations: welcome email with Start Here playlist; weekly digest; topic-based segments.

10) Sponsorship / Partner with KHAT

- Sponsorship overview, packages, audience/reach metrics, and case studies (later).
- Sponsorship request form + media kit download (PDF).

11) Be a Guest / Contact

- Guest application form: fit, topic, links, availability.
- Contact page: general inquiries + press inquiries.

12) Member Account / Profile (Phase 2)

- Saved episodes/clips/quotes/articles; personal playlists.
- Topic preferences for recommendations.
- Account settings: name, country, avatar, password.

13) Admin Dashboard (Back Office)

- Manage episodes (title, summary, tags, guest, duration, YouTube link).
- Add/edit timestamps (chapters) and quotes; attach resources.
- Publish articles; manage users (if enabled).
- Newsletter integrations; sponsorship leads inbox; analytics overview.

Recommended Build Phases

MVP (Launch fast, highest impact)

- Home
- Episodes Hub + Episode Detail (summary, timestamps, quotes, resources)
- Guests Directory + Guest Pages
- Start Here
- Newsletter signup
- Sponsorship page + form
- Be a Guest / Contact

Phase 2 (Growth and retention)

- Clips / Highlights Library
- Full Quotes Library experience (themes, quote of the day)
- Member accounts + saved content + playlists
- KHAT Space expansion (more evergreen SEO articles)
- Advanced search across timestamps and quotes
- Recommendation engine improvements

Implementation Notes

To ensure the site becomes a destination (not a duplicate of YouTube), prioritize searchable knowledge (timestamps, summaries, quotes) and strong entry paths (Start Here) from day one. These create repeat visits and organic traffic.
